## APPLICATIONS

Bucket used for the professional cleaning of the floors in small environments and places.

## FEATURES

- Made of high quality polypropylene copolymer: shock-proof, heavy duty and low-temperature resistant, light, non-toxic, completely recyclable
- Drawing "caution wet floor" on the sides of the bucket
- Equipped with two wringing rolls operated by foot-pedal on the bottom part of the bucket: in this way it allows the operator to work without bending
- Division plate which keeps the cleaning solution separate from the rinsing water and grants a professional floor cleaning reaching the best cleaning results, more hygiene, saving detergents, less working time and effort of the operator
- Ideal to be used in combination with microfiber mops, but it can be used also with any kind of mop and flat mop

## MATERIAL

Bucket: polypropylene copolymer

Rolls: rubber

Roll support: iron with cataphoresis coating

Pedal: galvanized metal
