

Personal hygiene

Kiilto Dose Dispenser

For Care Dose and Erisan Dose 400 ml
personal hygiene products

Area of use	Wall-mounted dispenser for personal hygiene products used in customer service. Stylish, clear-cut dispenser for toilets and bathroom facilities in hotels, saunas and spas, as well as in public toilet facilities.
Features	Durable, economical, stylish, and hygienic dosing solution for all public washrooms. A 400 ml disposable, replaceable pack placed in the dispenser is long lasting, airtight and hygienic – the product remains clean and safe. The dispensing cap produces a single-dose of 1.5 ml.
User guide	<p>Screw fastening to the wall with a screw (back plate) and adhesive tapes (or with 2 screws). Cover parts are connected to each other and the product title (Soap, Hair & Body, Shampoo) is pressed through the opening to be visible.</p> <p>Installation: Insert the product package, and press the lid onto the case, the device is ready for use. Pressing the moving lower part of the lid, an approximately 1.5 ml dose is dispensed.</p>
Notes	The dispenser is made from chemical-resistant material and it can be cleaned with conventional cleaning agents.
Composition	Dimensions: length 250 mm, width 110 mm, depth 75 mm. Made of high-gloss polyamide. The kit includes mounting screws and adhesive tapes.
Storage	Store above +5 ° C.
Made in	Finland
Use and environmental protection	The plastic material is recyclable. The transport box is from recyclable corrugated cardboard.
