

Protect

Vulnerable elderly skin sometimes need extra protection that can help soothe irritated skin and prevent further breakdown

TENA Barrier Cream

This gentle, transparent formula provides an enhanced water-repellent barrier against irritants, making it ideal for residents with at-risk vulnerable skin who require extra protection.

- For preventative use in areas which show signs of redness or irritation, primarily the delicate perineal area
- Allows for visualisation after application in order to check skin condition
- Dermatologically tested
- Free from perfume and preservatives
