

Moisturise

Caring products to soften and soothe sensitive skin while helping to maintain its natural moisture balance

TENA Skin Cream

Formulated for the care of extra dry and sensitive skin, TENA Skin Cream is rich, thick and ideal for moisturising extra dry skin.

- Can be used for dry patches or all over the body for daily skin care, especially after showers or baths
- Helps to leave extra dry and sensitive skin feeling smooth and soft
- Dermatologically tested
- Available in both a perfumed or perfume-free formulation

Product Name	Order #	Description	Pcs/Case	Format
TENA Skin Cream	-	150ml	10	Flip-cap tube
TENA Skin Cream Perfume-free	-	150ml	10	Flip-cap tube

Safety

The product fulfils the requirements of Regulation (EC) No. 1223/2009 of the European Parliament and the Council of 30 November 2009 on cosmetic products. As stipulated in Article 18 the product has not been tested on animals. The production unit is following the international standard ISO 22716:2007 as regards product documentation and Good Manufacturing Practices, GMP. The product has been evaluated with epicutaneous testing under dermatological control.

First aid

If discomfort is experienced after eye or skin contact, rinse for several minutes with lukewarm water. If eye or skin irritation persists, consult a physician. Upon ingestion of larger amounts, do NOT induce vomiting. Rinse the mouth and drink a glass of water. Where appropriate, consult a physician.

Physical properties

Physical state: Cream, oil-in-water emulsion

Smell: Light fragrance. Perfume-free version available.

Solubility: Water soluble

pH: 5

Storage and period of use

Product durability after production (expiry date): 36 months

Period After Opening (PAO): 12 months

Recommended storage

temperature: It is recommended that TENA Skin Cream is stored above 0°C, but not above room temperature (25°C). Protect from freezing, direct sunlight, extreme temperature variations and excessive heat. Exposure to high temperatures will accelerate the ageing of the product and the product durability cannot be guaranteed.

Ingredient (INCI name)	Role
Aqua	Solvent
Canola Oil	Emollient, skin conditioning
Glycerin	Humectant
Ethylhexyl Stearate	Emollient
Glyceryl Stearates	Emulsifying
Zea Mays Oil	Emollient
Polyglyceryl-3 Methylglucose Distearate	Emulsifying
Cetearyl Alcohol	Viscosity controlling
Dicaprylyl Carbonate	Emollient
Hydrogenated Coco-Glycerides	Emollient, skin conditioning
Panthenol	Skin conditioning
Tocopheryl Acetate	Antioxidant
Hydroxyethyl Acrylate/ Sodium Acryloyldimethyl Taurate Copolymer	Viscosity controlling
Betaine	Humectant, skin conditioning
Parfum*	Perfuming
Xanthan Gum	Emulsion stabilising, Viscosity controlling
Sodium Citrate	Buffering
Phenoxyethanol	Preservative
Benzoic Acid	Preservative
Dehydroacetic Acid	Preservative
Tocopherol**	Antioxidant
Citric Acid**	Buffering
Sorbitan Isostearate**	Emulsifying
Polysorbate 60**	Emulsifying
Pantolactone**	Humectant

*Not present in perfume-free version

**Not added to finished product, but present as additive in raw material.
