

Kiilto Pro Sanitop

Descaler for wet rooms

Kiilto Pro Sanitop is a descaler for wet rooms. It effectively removes deposits. The gel-like consistency allows the product to stay on vertical surfaces as well.

Application For cleaning surfaces that can withstand acidic detergents, such as tiles, sanitary ware and stainless steel. Removes and prevents deposits in wet rooms. Intended for professional use.

Product properties Descaling is a necessary part of cleaning wet rooms like toilets, washrooms, bathrooms, pools and other sanitary facilities. Kiilto Pro Sanitop is an effective descaler. When used regularly, it reduces the formation of deposits and brightens surfaces.

Kiilto Pro Sanitop is suitable for preventing and removing precipitation from tiled surfaces, sanitary ware, and stainless steel. It can be applied using foam devices, low-pressure washing systems as well as manual methods.

By choosing a product from the Kiilto Pro Natura range, you can trust that the entire supply chain from raw materials to manufacturing, usage of the product and disposal of the packaging, has been carefully considered to be as environmentally responsible as possible. Within one package, numerous sustainable choices are materialized.

Instructions for use Daily cleaning: Dose 1-4 ml of Kiilto Pro Sanitop per 1 l of water. Wet a cleaning cloth with the solution and apply it to the surfaces by wiping. Allow it to work on the handbasin and toilet seat surfaces for 10-15 minutes or according to need. Scrub and rinse.

Foam washing method: Dose 20 ml of Kiilto Pro Sanitop per 1 l of water. Wet the area to be cleaned with clean water first. Apply the solution to the surface using a low-pressure washing machine or a foam device and let it work for 5-10 minutes. Wash the surface thoroughly and rinse with clean water after washing.

Removing deposits: Use Kiilto Pro Sanitop undiluted.

Note Do not mix Kiilto Sanitop with substances containing chlorine.

Composition	Ingredient		Effect
	Non-ionic surfactants	< 5 %	Lowers the surface tension and removes dirt.
	Sodium Benzoate		Preservative

Other composition Non-ionic surfactants <5%, Phenoxyethanol

Product pH	3.0 acidic
Solution pH	4.0 acidic
