

# Kiilto Grease Foam

Degreaser

A ready-to-use, foaming degreaser. For removing grease and burnt-on dirt manually.

## Application

For removing grease and burnt-on dirt manually for example from ovens, grills, grease filters and steam hood. Also suitable for other surfaces in kitchens that tolerate highly alkaline substances.

## Product properties

A ready-to-use, foaming degreaser. The product is ready to be used in a convenient spray bottle. Due to the foam, the product sticks even to vertical surfaces and extends the contact time. The product can be applied to warm steel surfaces, <70 °C. The product doesn't spread as a harmful aerosol in use, hence it is not irritating to respiratory system.

## Instructions for use

Clean all dirt that comes loose. Spread the product on the surface to be cleaned by pressing the trigger steadily all the way down, while moving the bottle vertically and horizontally.

Let the foam work on the surface for 5–15 minutes depending on the level of griminess of the surface. The foam evens out a bit on vertical surfaces.

Scrub or brush areas with stubborn dirt if necessary.

Wipe the dirt and grease off with a moist cleaning cloth.

Rinse with a large volume of clean water.

## Note

Not suitable for cleaning aluminium, light metal or painted surfaces. Not suitable for cleaning warm enamel etc. sensitive surfaces. Pay attention to personal protective equipment as the product is highly alkaline.

## Composition

Ingredient	Effect
Non-ionic surfactants < 5 %	Lowers the surface tension, softens and removes dirt.
Anionic surfactants < 5 %	Lowers the surface tension and enhances the removal of particle deposits.
Amphoteric surfactants < 5 %	Lowers the surface tension and enhances the removal of particle deposits.
Sodium hydroxide < 5 %	Emulsifies grease, removes dirt and dissolves starch and protein. Maintains the pH at a beneficial level for the cleaning.

## Product pH

14.0 strongly alkaline

## Storage

Store in a dry place, tightly closed. Shelf life 3 years from the production date.

**Appearance and scent**

Clear liquid.

**Country of manufacture**

FINLAND

**User and environmental safety**

Surfactants are biologically decomposable in waste water purification. The other raw materials are environmentally friendly. Empty, rinsed containers can be recycled or used in energy production. The transport packaging is recyclable, unbleached corrugated cardboard.

**Package size / Product code**
