

# Kiilto Pro MD Block Alu

## Machine Dishwashing Agent

4080 0002

Environmentally friendly solid dishwashing detergent designed to dissolve all grease and lime coatings. Especially for washing dishes made of aluminum.

### Application

Detergent for machine dishwashers in professional use.

### Product properties

The solid alkaline detergent in concentrated form. Dissolved in water by water spray. Safe dosing directly from the packing to the dishwasher's detergent tank. Automatic dosing ensures exact doses. Dispense with a Whiteline MD Dispenser. Very economical and ergonomic. The product is designed to dissolve all coatings of grease and lime. Suitable for machine dishwashers in professional use. The product has the Nordic Ecolabel.

### Instructions for use

Dosage begins from 1,2 g/l in water hardness over 6 °dH. Temperature in main wash must be 60 - 65 °C.

Before the main wash cycle, rinse the dishes with warm water (max +35°C). Place the dishes on appropriate racks with the soiled sides facing the machine spray heads. Ensure that all dishes are within the reach of the machine spray heads.

### Composition

#### Ingredient

Complexing agent	>30%
------------------	------

### Solution pH

12.0 strongly alkaline

### Country of manufacture

SWEDEN
