

Kiilto Pro MD Block S

Machine Dishwashing Agent

3080 0014

A solid, highly alkaline detergent concentrate for automatic dishwashers. May be used with most water types. Suitable for machine dishwashers in professional use.

Application	Detergent for machine dishwashers in professional kitchens.		
Product properties	A solid, highly alkaline detergent in concentrated form. Dissolved in water by water spray. Safe dosing directly from the packing to the dishwasher's detergent tank. Automatic dosing ensures exact doses. To be used with the Whiteline MD Dispenser Single dosing unit. Highly Economic and ergonomic to use. Product is suitable for machine dishwashers in professional use. Labelled with the Nordic Ecolabel.		
Instructions for use	<p>Before the main wash cycle, rinse the dishes with warm water (max +35°C). Place the dishes on appropriate racks with the soiled sides facing the machine spray heads. Ensure that all dishes are within the reach of the machine spray heads.</p> <p>Dosage begins from 0,1 g/l in water hardness 0-6 °dH. Dosage begins from 0,3 g/l in water hardness over 6 °dH. Temperature in main wash must be 60 - 65 °C.</p> <p>Use the lowest water temperature guaranteed to leave the dishes clean. Always wash full loads, if possible. Avoid larger or smaller doses than those recommended.</p>		
Note	Not recommended for aluminium dishes.		
Composition	Ingredient		Effect
	Sodium hydroxide	> 30%	Emulsifies fat, removes food residues and stains, dissolves starches and protein.
	Complexing agent	15 - 30 %	Softens the water and enhances washing efficiency. Prevents forming of limestone deposits.
	Phosphonates	< 5 %	Removes food residues and stains, emulsifies fat, dissolves starches and protein.
Solution pH	13.0 strongly alkaline		
Storage	Store tightly sealed in a dry place in original package. Shelf life is 3 years from the manufacturing date.		
Appearance and scent	White, solid.		

Country of manufacture

SWEDEN

User and environmental safety

Surfactants are biodegradable in wastewater treatment. Empty, rinsed containers can be recycled or used in energy production. The transport packaging is recyclable, unbleached corrugated cardboard.
