

Kiilto Pro Workwear Wash

Washing liquid for heavily soiled workwear

The familiar Kiilto Pro Workwear Wash has been given an updated formula and a new product code.

Kiilto Pro Workwear Wash is a washing detergent specifically for washing heavily soiled workwear.

Application

For washing heavily soiled workwear.

Effectively washes clothes with different degrees of soiling at temperatures from 20 to 95 °C.

Intended for professional use.

Product properties

When washing workwear made of technical fabrics, it's crucial to use a detergent that effectively removes grease and dirt without damaging the material's properties. Kiilto Pro Workwear Wash provides a low-foam solution that cleans thoroughly, even when the textiles are covered in grime.

Kiilto Pro Workwear wash contains colour protection that keeps the colours of workwear textiles bright. It also makes the detergent suitable for coloured textiles that also contain white parts, as well as textiles that are fully white.

The detergent does not contain any dyes, brighteners, perfumes, preservatives or bleaching agents, making it safe to use for most textiles that can withstand machine washing. It can also be used for different technical materials, such as Gore-Tex and reflective textiles.

Kiilto Pro Workwear Wash is also free of phosphorus, allowing it to meet even more stringent environmental criteria than those set by Nordic Swan Ecolabel.

In addition, Kiilto Pro Workwear Wash contains a wide combination of enzymes ready to break down different food stains from protein and starch to mannans. This makes the detergent an optimal choice for washing kitchen workwear.

Instructions for use

Follow the washing instructions on the textiles. Sort the laundry by colour, fibre and dirt. Wash new coloured textiles separately. Always wash dark textiles separately from the light.

Dispense Kiilto Pro Workwear Wash into the dispenser drawer. Adjust the amount based on the laundry's level of soiling and the water hardness. Refer to the dosing table below for guidance.

The size of the washing machine

Water hardness

	< 6 °dH	6-13 °dH	> 13 °dH
4-5 kg	30 ml	35 ml	40 ml
6-8 kg	45 ml	55 ml	65 ml

Note

Amount of washes per packaging size:
1,6 l: 53 washes in soft water or 45 washes in medium hard water

The number of washes is based on the dosage for a standard machine load (4,5 kg of dry fabric) according to the Detergent Regulation.

Composition

Ingredient	
Non-ionic surfactants	15-30 %
Anionic surfactants	< 5 %
Soap	< 5 %
Enzymes	< 5 %
Polycarboxylate	< 5 %
Phenoxyethanol	< 5 %

Product pH

9.5 weakly alkaline

Solution pH

9.5 weakly alkaline

Storage

Must be stored in temperatures above 10 °C. Effective shelf life is 3 years from manufacturing when stored properly.

Appearance and scent

Yellowish, liquid
Non-perfumed

Country of manufacture

FINLAND

User and environmental safety

The packaging can be recycled after use: we recommend that empty, rinsed containers are recycled and reused as material. They can also be reused for energy. The transport packages are recyclable.

Kiilto Pro Workwear Wash is Nordic Swan labelled. Nordic Swan Ecolabelled products meet strict environmental requirements based on a life-cycle approach. This considers factors such as the origin of raw-materials, energy consumption during production and use, as well as the waste generation throughout the entire production and consumption chain. It also means that Kiilto Pro Textile Liquid fulfils strict demands for biodegradability.

The Allergy label, granted for Kiilto Pro Workwear Wash by the Finnish Allergy, Skin and Asthma Federation, indicates that the product doesn't contain fragrances or commonly sensitizing or irritating substances.

Kiilto Pro Workwear Wash also has the Key Flag Symbol. It is a registered mark demonstrating that the product has been manufactured in Finland.

Lastly, Kiilto Pro Workwear Wash contains no animal-derived ingredients and has not been tested on animals.
